

EDM8017 Professional Experience Placement Guidelines

The expectations of the program vary for each year and placement. This section provides details of preservice teacher activity required during the Professional Experience placement scheduled for the year and aligns these expectations with the Australian Professional Standards for Graduate Teachers.

Professional Experience context: Semester 3 (Third Semester), 10-Day, Birth-2-years-old, supervised Early Childhood setting placement

The preservice teacher will critically inquire about the complex and changing nature of learning with, caring for and educating infants and toddlers. Culturally relevant theoretical approaches and methodological innovations to the study of infants and toddlers are explored. Particular attention will be paid to the impact of government and economic policies and directions on services for infants and toddlers and their families. The preservice teacher will examine their own positionality in working with and relating to families, with a focus on questioning and reframing their existing thinking and practices. Through course work, reflexivity and research, preservice teachers will have the opportunity to develop critical pedagogies for working with infants and toddlers, and critical approaches to planning for relationships, attachment, care and play as the curriculum of everyday life in infant and toddler settings. Interconnections between infants and toddlers and their educators are uncovered along with implications for working ethically and respectfully with their families and communities.

Course participants will undertake a Professional Experience placement in an early childhood setting which caters for children birth to two years and their families. It is a requirement during this Professional Experience placement to design and implement an Action Research project in collaboration with stakeholders in the placement setting.

Required experiences:

Throughout this Professional Experience placement, it is expected that the preservice teacher will have daily experience in the following areas (unless otherwise stated).
