Building Condition Assessment - Toowoomba Campus

An external consultant (SPM Assets Pty Ltd) has been appointed to complete building condition assessments across the Toowoomba campus. These assessments will inform a program of works and cost estimates for building maintenance over the next 10 years.

To permit the completion of the condition assessments, a representative from SPM Assets may request access to office and teaching spaces across the university over the coming weeks. The visual inspections will be completed on a sample of rooms/spaces in each building, with a duration of approximately 10 minutes per room/space.

To minimise disruption to staff and students, vacant office and teaching spaces will be inspected wherever possible.
